PROFILE

Motivated Computer Science undergraduate at SZABIST with a strong foundation in C++, Java, Data Structures, and Software Development. Passionate about Graphic Design, Branding, and Digital Content Creation. Skilled in programming, problem-solving, logo design, social media graphics, YouTube thumbnails, and professional template creation. Eager to apply both technical and creative expertise to real-world projects while continuously learning emerging technologies.

WORK EXPERIENCE

- **YouTube Thumbnail Collection** – Designed engaging and click-worthy thumbnails for educational and entertainment content.
- **Social Media Template Design** – Created reusable templates for Instagram, Facebook, and LinkedIn posts.
- **Brand Identity Design** – Designed logos, banners, and branding materials for personal and academic projects.
- **Java Programming Projects** – Developed console-based applications using Java and OOP concepts.
- **C++ Programming Projects** – Built software applications implementing data structures and problem-solving techniques.
